El soporte multifuncional Bed in Bed puede utilizarse como cambiador.

Bed in Bed is a multifunctional support for babies from 0 to 8 months old. It allows the cot to transform into a mini cot; so your baby can sleep more comfortable and more protected; it can be used as a co-sleeper pod, and then share the bed with your little one. Because of this, it also works as safe anti-roll system and protector. It is the perfect travel cot due to its size and lightness. It can be a convenient changer and even a nice hammock for playtime.
